**IMAGENEX MODEL DT102xi**  
**180° MULTIBEAM PROFILING SONAR**  
**with Optional Internally Integrated**  
**Motion Reference Unit**  
**& Sound Velocity Sensor**

The new DT102xi 180° Multibeam Profiling Sonar (i.e. Multibeam Echo Sounder) is a single instrument integrating the sonar, motion reference unit (MRU), and sound velocity sensor into one sleek and compact unit. The DT102xi requires only one cable for operating all three sensors and is a portable solution for any survey. Compatible with the DT100 SIR (Sensor Interface Relay) power supply/timing box, simply connecting a dual antenna GNSS/GPS receiver is all that is required to perform bathymetric surveys.
